Incident Response Playbook

Executive Summary

This playbook describes the full incident response workflow for a detected threat campaign.

Phase 1: Identification

1. Step 1: Perform analysis task 1 in phase 1. Review all log entries from source 10.0.0.2.
2. Step 2: Perform analysis task 2 in phase 1. Review all log entries from source 10.0.0.3.
3. Step 3: Perform analysis task 3 in phase 1. Review all log entries from source 10.0.0.4.
4. Step 4: Perform analysis task 4 in phase 1. Review all log entries from source 10.0.0.5.
5. Step 5: Perform analysis task 5 in phase 1. Review all log entries from source 10.0.0.6.
6. Step 6: Perform analysis task 6 in phase 1. Review all log entries from source 10.0.0.7.
7. Step 7: Perform analysis task 7 in phase 1. Review all log entries from source 10.0.0.8.
8. Step 8: Perform analysis task 8 in phase 1. Review all log entries from source 10.0.0.9.
9. Step 9: Perform analysis task 9 in phase 1. Review all log entries from source 10.0.0.10.
10. Step 10: Perform analysis task 10 in phase 1. Review all log entries from source 10.0.0.11.
11. Step 11: Perform analysis task 11 in phase 1. Review all log entries from source 10.0.0.12.
12. Step 12: Perform analysis task 12 in phase 1. Review all log entries from source 10.0.0.13.
13. Step 13: Perform analysis task 13 in phase 1. Review all log entries from source 10.0.0.14.
14. Step 14: Perform analysis task 14 in phase 1. Review all log entries from source 10.0.0.15.
15. Step 15: Perform analysis task 15 in phase 1. Review all log entries from source 10.0.0.16.
16. Step 16: Perform analysis task 16 in phase 1. Review all log entries from source 10.0.0.17.
17. Step 17: Perform analysis task 17 in phase 1. Review all log entries from source 10.0.0.18.

18. Step 18: Perform analysis task 18 in phase 1. Review all log entries from source 10.0.0.19.
19. Step 19: Perform analysis task 19 in phase 1. Review all log entries from source 10.0.0.20.
20. Step 20: Perform analysis task 20 in phase 1. Review all log entries from source 10.0.0.21.
21. Step 21: Perform analysis task 21 in phase 1. Review all log entries from source 10.0.0.22.
22. Step 22: Perform analysis task 22 in phase 1. Review all log entries from source 10.0.0.23.
23. Step 23: Perform analysis task 23 in phase 1. Review all log entries from source 10.0.0.24.
24. Step 24: Perform analysis task 24 in phase 1. Review all log entries from source 10.0.0.25.
25. Step 25: Perform analysis task 25 in phase 1. Review all log entries from source 10.0.0.26.
26. Step 26: Perform analysis task 26 in phase 1. Review all log entries from source 10.0.0.27.
27. Step 27: Perform analysis task 27 in phase 1. Review all log entries from source 10.0.0.28.
28. Step 28: Perform analysis task 28 in phase 1. Review all log entries from source 10.0.0.29.
29. Step 29: Perform analysis task 29 in phase 1. Review all log entries from source 10.0.0.30.
30. Step 30: Perform analysis task 30 in phase 1. Review all log entries from source 10.0.0.31.
31. Step 31: Perform analysis task 31 in phase 1. Review all log entries from source 10.0.0.32.
32. Step 32: Perform analysis task 32 in phase 1. Review all log entries from source 10.0.0.33.
33. Step 33: Perform analysis task 33 in phase 1. Review all log entries from source 10.0.0.34.
34. Step 34: Perform analysis task 34 in phase 1. Review all log entries from source 10.0.0.35.
35. Step 35: Perform analysis task 35 in phase 1. Review all log entries from source 10.0.0.36.
36. Step 36: Perform analysis task 36 in phase 1. Review all log entries from source 10.0.0.37.
37. Step 37: Perform analysis task 37 in phase 1. Review all log entries from source 10.0.0.38.
38. Step 38: Perform analysis task 38 in phase 1. Review all log entries from source 10.0.0.39.
39. Step 39: Perform analysis task 39 in phase 1. Review all log entries from source 10.0.0.40.
40. Step 40: Perform analysis task 40 in phase 1. Review all log entries from source 10.0.0.41.

Phase 2: Detection

1. Step 1: Perform analysis task 1 in phase 2. Review all log entries from source 10.0.0.2.
2. Step 2: Perform analysis task 2 in phase 2. Review all log entries from source 10.0.0.3.
3. Step 3: Perform analysis task 3 in phase 2. Review all log entries from source 10.0.0.4.
4. Step 4: Perform analysis task 4 in phase 2. Review all log entries from source 10.0.0.5.
5. Step 5: Perform analysis task 5 in phase 2. Review all log entries from source 10.0.0.6.
6. Step 6: Perform analysis task 6 in phase 2. Review all log entries from source 10.0.0.7.
7. Step 7: Perform analysis task 7 in phase 2. Review all log entries from source 10.0.0.8.
8. Step 8: Perform analysis task 8 in phase 2. Review all log entries from source 10.0.0.9.

9. Step 9: Perform analysis task 9 in phase 2. Review all log entries from source 10.0.0.10.
10. Step 10: Perform analysis task 10 in phase 2. Review all log entries from source 10.0.0.11.
11. Step 11: Perform analysis task 11 in phase 2. Review all log entries from source 10.0.0.12.
12. Step 12: Perform analysis task 12 in phase 2. Review all log entries from source 10.0.0.13.
13. Step 13: Perform analysis task 13 in phase 2. Review all log entries from source 10.0.0.14.
14. Step 14: Perform analysis task 14 in phase 2. Review all log entries from source 10.0.0.15.
15. Step 15: Perform analysis task 15 in phase 2. Review all log entries from source 10.0.0.16.
16. Step 16: Perform analysis task 16 in phase 2. Review all log entries from source 10.0.0.17.
17. Step 17: Perform analysis task 17 in phase 2. Review all log entries from source 10.0.0.18.
18. Step 18: Perform analysis task 18 in phase 2. Review all log entries from source 10.0.0.19.
19. Step 19: Perform analysis task 19 in phase 2. Review all log entries from source 10.0.0.20.
20. Step 20: Perform analysis task 20 in phase 2. Review all log entries from source 10.0.0.21.
21. Step 21: Perform analysis task 21 in phase 2. Review all log entries from source 10.0.0.22.
22. Step 22: Perform analysis task 22 in phase 2. Review all log entries from source 10.0.0.23.
23. Step 23: Perform analysis task 23 in phase 2. Review all log entries from source 10.0.0.24.
24. Step 24: Perform analysis task 24 in phase 2. Review all log entries from source 10.0.0.25.
25. Step 25: Perform analysis task 25 in phase 2. Review all log entries from source 10.0.0.26.
26. Step 26: Perform analysis task 26 in phase 2. Review all log entries from source 10.0.0.27.
27. Step 27: Perform analysis task 27 in phase 2. Review all log entries from source 10.0.0.28.
28. Step 28: Perform analysis task 28 in phase 2. Review all log entries from source 10.0.0.29.
29. Step 29: Perform analysis task 29 in phase 2. Review all log entries from source 10.0.0.30.
30. Step 30: Perform analysis task 30 in phase 2. Review all log entries from source 10.0.0.31.
31. Step 31: Perform analysis task 31 in phase 2. Review all log entries from source 10.0.0.32.
32. Step 32: Perform analysis task 32 in phase 2. Review all log entries from source 10.0.0.33.
33. Step 33: Perform analysis task 33 in phase 2. Review all log entries from source 10.0.0.34.
34. Step 34: Perform analysis task 34 in phase 2. Review all log entries from source 10.0.0.35.
35. Step 35: Perform analysis task 35 in phase 2. Review all log entries from source 10.0.0.36.
36. Step 36: Perform analysis task 36 in phase 2. Review all log entries from source 10.0.0.37.
37. Step 37: Perform analysis task 37 in phase 2. Review all log entries from source 10.0.0.38.
38. Step 38: Perform analysis task 38 in phase 2. Review all log entries from source 10.0.0.39.
39. Step 39: Perform analysis task 39 in phase 2. Review all log entries from source 10.0.0.40.
40. Step 40: Perform analysis task 40 in phase 2. Review all log entries from source 10.0.0.41.

Phase 3: Containment

1. Step 1: Perform analysis task 1 in phase 3. Review all log entries from source 10.0.0.2.
2. Step 2: Perform analysis task 2 in phase 3. Review all log entries from source 10.0.0.3.
3. Step 3: Perform analysis task 3 in phase 3. Review all log entries from source 10.0.0.4.
4. Step 4: Perform analysis task 4 in phase 3. Review all log entries from source 10.0.0.5.
5. Step 5: Perform analysis task 5 in phase 3. Review all log entries from source 10.0.0.6.
6. Step 6: Perform analysis task 6 in phase 3. Review all log entries from source 10.0.0.7.
7. Step 7: Perform analysis task 7 in phase 3. Review all log entries from source 10.0.0.8.
8. Step 8: Perform analysis task 8 in phase 3. Review all log entries from source 10.0.0.9.
9. Step 9: Perform analysis task 9 in phase 3. Review all log entries from source 10.0.0.10.
10. Step 10: Perform analysis task 10 in phase 3. Review all log entries from source 10.0.0.11.
11. Step 11: Perform analysis task 11 in phase 3. Review all log entries from source 10.0.0.12.
12. Step 12: Perform analysis task 12 in phase 3. Review all log entries from source 10.0.0.13.
13. Step 13: Perform analysis task 13 in phase 3. Review all log entries from source 10.0.0.14.
14. Step 14: Perform analysis task 14 in phase 3. Review all log entries from source 10.0.0.15.
15. Step 15: Perform analysis task 15 in phase 3. Review all log entries from source 10.0.0.16.
16. Step 16: Perform analysis task 16 in phase 3. Review all log entries from source 10.0.0.17.
17. Step 17: Perform analysis task 17 in phase 3. Review all log entries from source 10.0.0.18.
18. Step 18: Perform analysis task 18 in phase 3. Review all log entries from source 10.0.0.19.
19. Step 19: Perform analysis task 19 in phase 3. Review all log entries from source 10.0.0.20.
20. Step 20: Perform analysis task 20 in phase 3. Review all log entries from source 10.0.0.21.
21. Step 21: Perform analysis task 21 in phase 3. Review all log entries from source 10.0.0.22.
22. Step 22: Perform analysis task 22 in phase 3. Review all log entries from source 10.0.0.23.
23. Step 23: Perform analysis task 23 in phase 3. Review all log entries from source 10.0.0.24.
24. Step 24: Perform analysis task 24 in phase 3. Review all log entries from source 10.0.0.25.
25. Step 25: Perform analysis task 25 in phase 3. Review all log entries from source 10.0.0.26.
26. Step 26: Perform analysis task 26 in phase 3. Review all log entries from source 10.0.0.27.
27. Step 27: Perform analysis task 27 in phase 3. Review all log entries from source 10.0.0.28.
28. Step 28: Perform analysis task 28 in phase 3. Review all log entries from source 10.0.0.29.
29. Step 29: Perform analysis task 29 in phase 3. Review all log entries from source 10.0.0.30.
30. Step 30: Perform analysis task 30 in phase 3. Review all log entries from source 10.0.0.31.
31. Step 31: Perform analysis task 31 in phase 3. Review all log entries from source 10.0.0.32.
32. Step 32: Perform analysis task 32 in phase 3. Review all log entries from source 10.0.0.33.
33. Step 33: Perform analysis task 33 in phase 3. Review all log entries from source 10.0.0.34.
34. Step 34: Perform analysis task 34 in phase 3. Review all log entries from source 10.0.0.35.

35. Step 35: Perform analysis task 35 in phase 3. Review all log entries from source 10.0.0.36.
36. Step 36: Perform analysis task 36 in phase 3. Review all log entries from source 10.0.0.37.
37. Step 37: Perform analysis task 37 in phase 3. Review all log entries from source 10.0.0.38.
38. Step 38: Perform analysis task 38 in phase 3. Review all log entries from source 10.0.0.39.
39. Step 39: Perform analysis task 39 in phase 3. Review all log entries from source 10.0.0.40.
40. Step 40: Perform analysis task 40 in phase 3. Review all log entries from source 10.0.0.41.

Phase 4: Eradication

1. Step 1: Perform analysis task 1 in phase 4. Review all log entries from source 10.0.0.2.
2. Step 2: Perform analysis task 2 in phase 4. Review all log entries from source 10.0.0.3.
3. Step 3: Perform analysis task 3 in phase 4. Review all log entries from source 10.0.0.4.
4. Step 4: Perform analysis task 4 in phase 4. Review all log entries from source 10.0.0.5.
5. Step 5: Perform analysis task 5 in phase 4. Review all log entries from source 10.0.0.6.
6. Step 6: Perform analysis task 6 in phase 4. Review all log entries from source 10.0.0.7.
7. Step 7: Perform analysis task 7 in phase 4. Review all log entries from source 10.0.0.8.
8. Step 8: Perform analysis task 8 in phase 4. Review all log entries from source 10.0.0.9.
9. Step 9: Perform analysis task 9 in phase 4. Review all log entries from source 10.0.0.10.
10. Step 10: Perform analysis task 10 in phase 4. Review all log entries from source 10.0.0.11.
11. Step 11: Perform analysis task 11 in phase 4. Review all log entries from source 10.0.0.12.
12. Step 12: Perform analysis task 12 in phase 4. Review all log entries from source 10.0.0.13.
13. Step 13: Perform analysis task 13 in phase 4. Review all log entries from source 10.0.0.14.
14. Step 14: Perform analysis task 14 in phase 4. Review all log entries from source 10.0.0.15.
15. Step 15: Perform analysis task 15 in phase 4. Review all log entries from source 10.0.0.16.
16. Step 16: Perform analysis task 16 in phase 4. Review all log entries from source 10.0.0.17.
17. Step 17: Perform analysis task 17 in phase 4. Review all log entries from source 10.0.0.18.
18. Step 18: Perform analysis task 18 in phase 4. Review all log entries from source 10.0.0.19.
19. Step 19: Perform analysis task 19 in phase 4. Review all log entries from source 10.0.0.20.
20. Step 20: Perform analysis task 20 in phase 4. Review all log entries from source 10.0.0.21.
21. Step 21: Perform analysis task 21 in phase 4. Review all log entries from source 10.0.0.22.
22. Step 22: Perform analysis task 22 in phase 4. Review all log entries from source 10.0.0.23.
23. Step 23: Perform analysis task 23 in phase 4. Review all log entries from source 10.0.0.24.
24. Step 24: Perform analysis task 24 in phase 4. Review all log entries from source 10.0.0.25.
25. Step 25: Perform analysis task 25 in phase 4. Review all log entries from source 10.0.0.26.

26. Step 26: Perform analysis task 26 in phase 4. Review all log entries from source 10.0.0.27.
27. Step 27: Perform analysis task 27 in phase 4. Review all log entries from source 10.0.0.28.
28. Step 28: Perform analysis task 28 in phase 4. Review all log entries from source 10.0.0.29.
29. Step 29: Perform analysis task 29 in phase 4. Review all log entries from source 10.0.0.30.
30. Step 30: Perform analysis task 30 in phase 4. Review all log entries from source 10.0.0.31.
31. Step 31: Perform analysis task 31 in phase 4. Review all log entries from source 10.0.0.32.
32. Step 32: Perform analysis task 32 in phase 4. Review all log entries from source 10.0.0.33.
33. Step 33: Perform analysis task 33 in phase 4. Review all log entries from source 10.0.0.34.
34. Step 34: Perform analysis task 34 in phase 4. Review all log entries from source 10.0.0.35.
35. Step 35: Perform analysis task 35 in phase 4. Review all log entries from source 10.0.0.36.
36. Step 36: Perform analysis task 36 in phase 4. Review all log entries from source 10.0.0.37.
37. Step 37: Perform analysis task 37 in phase 4. Review all log entries from source 10.0.0.38.
38. Step 38: Perform analysis task 38 in phase 4. Review all log entries from source 10.0.0.39.
39. Step 39: Perform analysis task 39 in phase 4. Review all log entries from source 10.0.0.40.
40. Step 40: Perform analysis task 40 in phase 4. Review all log entries from source 10.0.0.41.

Phase 5: Recovery

1. Step 1: Perform analysis task 1 in phase 5. Review all log entries from source 10.0.0.2.
2. Step 2: Perform analysis task 2 in phase 5. Review all log entries from source 10.0.0.3.
3. Step 3: Perform analysis task 3 in phase 5. Review all log entries from source 10.0.0.4.
4. Step 4: Perform analysis task 4 in phase 5. Review all log entries from source 10.0.0.5.
5. Step 5: Perform analysis task 5 in phase 5. Review all log entries from source 10.0.0.6.
6. Step 6: Perform analysis task 6 in phase 5. Review all log entries from source 10.0.0.7.
7. Step 7: Perform analysis task 7 in phase 5. Review all log entries from source 10.0.0.8.
8. Step 8: Perform analysis task 8 in phase 5. Review all log entries from source 10.0.0.9.
9. Step 9: Perform analysis task 9 in phase 5. Review all log entries from source 10.0.0.10.
10. Step 10: Perform analysis task 10 in phase 5. Review all log entries from source 10.0.0.11.
11. Step 11: Perform analysis task 11 in phase 5. Review all log entries from source 10.0.0.12.
12. Step 12: Perform analysis task 12 in phase 5. Review all log entries from source 10.0.0.13.
13. Step 13: Perform analysis task 13 in phase 5. Review all log entries from source 10.0.0.14.
14. Step 14: Perform analysis task 14 in phase 5. Review all log entries from source 10.0.0.15.
15. Step 15: Perform analysis task 15 in phase 5. Review all log entries from source 10.0.0.16.
16. Step 16: Perform analysis task 16 in phase 5. Review all log entries from source 10.0.0.17.

17. Step 17: Perform analysis task 17 in phase 5. Review all log entries from source 10.0.0.18.
18. Step 18: Perform analysis task 18 in phase 5. Review all log entries from source 10.0.0.19.
19. Step 19: Perform analysis task 19 in phase 5. Review all log entries from source 10.0.0.20.
20. Step 20: Perform analysis task 20 in phase 5. Review all log entries from source 10.0.0.21.
21. Step 21: Perform analysis task 21 in phase 5. Review all log entries from source 10.0.0.22.
22. Step 22: Perform analysis task 22 in phase 5. Review all log entries from source 10.0.0.23.
23. Step 23: Perform analysis task 23 in phase 5. Review all log entries from source 10.0.0.24.
24. Step 24: Perform analysis task 24 in phase 5. Review all log entries from source 10.0.0.25.
25. Step 25: Perform analysis task 25 in phase 5. Review all log entries from source 10.0.0.26.
26. Step 26: Perform analysis task 26 in phase 5. Review all log entries from source 10.0.0.27.
27. Step 27: Perform analysis task 27 in phase 5. Review all log entries from source 10.0.0.28.
28. Step 28: Perform analysis task 28 in phase 5. Review all log entries from source 10.0.0.29.
29. Step 29: Perform analysis task 29 in phase 5. Review all log entries from source 10.0.0.30.
30. Step 30: Perform analysis task 30 in phase 5. Review all log entries from source 10.0.0.31.
31. Step 31: Perform analysis task 31 in phase 5. Review all log entries from source 10.0.0.32.
32. Step 32: Perform analysis task 32 in phase 5. Review all log entries from source 10.0.0.33.
33. Step 33: Perform analysis task 33 in phase 5. Review all log entries from source 10.0.0.34.
34. Step 34: Perform analysis task 34 in phase 5. Review all log entries from source 10.0.0.35.
35. Step 35: Perform analysis task 35 in phase 5. Review all log entries from source 10.0.0.36.
36. Step 36: Perform analysis task 36 in phase 5. Review all log entries from source 10.0.0.37.
37. Step 37: Perform analysis task 37 in phase 5. Review all log entries from source 10.0.0.38.
38. Step 38: Perform analysis task 38 in phase 5. Review all log entries from source 10.0.0.39.
39. Step 39: Perform analysis task 39 in phase 5. Review all log entries from source 10.0.0.40.
40. Step 40: Perform analysis task 40 in phase 5. Review all log entries from source 10.0.0.41.
